* If you enter, say, 100, it says that the grid is complete? why '0' in column 1?

* If the difference between the two groups is significant, the group with the higher mean is the "better" group. If the difference is not significant, the group with the higher mean is the "better" group.

... If the highest of the above is less than 100, the US SPACE is less than 100 miles.

The Highest Number Previously Paid For (Total or Independent) is the highest number found in the appropriate row in column 1.

This collection of information is required by 37 CFR 1.6. The information is required to obtain or renew a patent. The public which is to be benefited by the USPTO in processing applications for patentability is governed by 38 USC 102 and 37 CFR 1.1. This material is being made available to the public to enable the public to determine whether they are submitting the completed application form to the USPTO.
